## RFK Jr. Reveals What The Media Will Never Tell You About Ukraine: “The US Wanted This War”

- According to Kennedy, President Zelensky had intentions of signing the Minsk Accords, a peace agreement with Russia over a year ago.
- The agreement left Ukraine intact but provided protections for ethnic Russians in Ukraine.
- Putin started withdrawing his troops. However, British Prime Minister Boris Johnson was sent to Ukraine to “kill the agreement.”

- The US marketed Ukraine as a humanitarian crisis. Yet, when pressed, US leaders said the objectives were regime change in Russia and the exhaustion of the Russian army.

“The story that we’re told that there was an unprovoked invasion by Putin is not the accurate story,” declared Kennedy. “There’s another story, and that is that the US wanted this war.”

## RFK Jr. Identifies “The Real Shooter” Behind His Father’s Death

THE VIGILANT FOX • JUL 24

Watch now (8 mins) | Just over fifty-five years ago, on June 5, 1968, Senator Robert F. Kennedy was gunned down in the kitchen of the Ambassador Hotel in Los Angeles, shortly after triumphing in the California and South Dakota Presidential primaries. Robert F. Kennedy, often referred to as RFK or Bobby Kennedy, was an American politician and lawyer who served as the 64th Uni...

This has been one of those out-in-the-open-but-not-discussed matters that we're not supposed to mention. We treated Ukraine like a plaything, funding biolabs and overthrowing its government (and choosing the next one) -- and we didn't expect Russia to react exactly as we reacted to them getting cozy in Cuba?

I'm so sick of the warmongers who get us involved where we shouldn't be, and then use that involvement to justify further escalation!

Russia attempted to avoid this war for years but got played by DC which had no intention of living up to the Minsk Agreements. DC was acting to deceive, stalling to further militarize Ukraine. All the while Kiev was terrorizing innocent people in the Donbas region, slaughtering them with artillery and air strikes; targeted attacks on civilians which continue to this day.

Putin doesn't want the New World Order. He wants to be in charge of his country and call the shots for Russia like he always has done. This is Putin giving the NWO the middle finger.

There has been nothing but war in the USA since 1942 (WWII). Korea Vietnam Iraq Afghanistan Syria Ukraine plus little excursions like Niger which we are about to enter. We are ruled by the Banking elite which controls Gates, Soros, WHO, government elections, CIA, FBI, the White House, big tech, Big pharma, and the military industrial complex etc etc.

Until a majority wake up to this fact we are but pawns on the game table.

RFK Jr might not win because they control the vote tabulations and are censoring him by every means but if we can continue to spread the word about him we might reach the majority we need to bring down the satanic cabal. God willing.

I completely agree with RFK Jr.'s assessment of the war in the Ukraine. As being an pro-peace candidate, I was shocked to hear his recent statements regarding Israel/Palestine, and his seemingly over the top "unconditional" support for Israel, and characterization of the Palestinian people in such a negative light. He doesn't seem to realize that Israel is provoking

war with neighboring countries and Iran in a similar fashion that the US provoked the war between Russia and the Ukraine. I think that RFK JR believed for most of his life that his father was killed by a Palestinian, though he says that he no longer thinks Sirhan killed his father. Nevertheless, it seems that he still has some deep seeded hatred towards Palestinians in his heart. I get the impression that this deep seeded hatred is clouding his judgement on this issue.

I think he knows to win he has to back Israel 100%. But there are two Israels. Normal Jews, Arabs and Christians and the orthodox Zionist Jews. Those Jews like Zelensky and Soros who are Jewish in name only.

RFK Jr is pro peace. I believe this because he can't lie as he lives by the 12 step principles (as I do) and to lie means death.

I don't think he is lying. I suspect that he has a deep seeded hatred towards Palestinians because when he was younger that a Palestinian killed his father, and that this hatred has clouded his judgement on the Israel/Palestine issue throughout his life. I am also disappointed that he would ever call anyone an anti-Semite, especially someone who says that they are not anti-Semitic. I think he should refrain from calling anyone an anti-Semite. and refrain from saying his spiel that he has repeated several times that goes something like.... if someone is critical of Israel without being critical of Muslim countries in the same breath then that that is being anti-Semitic. That is not a good argument. That is like saying if someone is critical of the US without at the same time criticizing Russia then they are xenophobia. The argument is even more ridiculous when we consider that many of the people criticizing Israeli policies are Israeli Jews.

Could be but he doesn't seem the man to hold a grudge. In fact he wanted Surhan released. He has also come to the realization this was an assassination by the CIA

I think that RFK Jr is the best on vaccines and medicines, but nothing else. He supports the climate change crisis fraud, and wants to surrender Ukraine to Russia. I'd rather vote for his son Conor, a brave man who went to Ukraine to fight the Russian invaders.

Biden/Trudeau slowing oil production and cancelling pipelines means they needed chaos in Eurasia to help prop their dollars. Biden also needs to try and keep the USA dollar the reserve currency.

The green new deal means continuous chaos elsewhere to to keep investors in North America.

Quashing oil will ruin North America economies.

A little correction to one of the points on your email:

The peace agreement of March/April 2022, which Boris Johnson put a stop to, were separate and different from the Minsk Accords.

The Minsk Accords were signed, in September 2014, by Ukraine, Russia, France and Germany, following the February 2014 coup that led to violence by Ukrainian factions against the largely ethnic Russian Donbas. France and Germany were meant to ensure that the Accords were enforced, but they did not, and Ukraine continued shelling its own citizens in the Donbas for eight years prior to Russian intervention.

Question is: How did Putin get outplayed by Biden-Harris?

They kept provoking, yes.

But still.

And of course while provoking for many years they were massacring ethnic Russians, while training up the Ukrainian military and ensuring it would be a bloodbath. Afghanistan 2.0.

But not fought in Central Asia.

Fought as a proxy war against NATO's might, with its Article 5 hanging aloft waiting to drop and immolate the Pretenders in Chief.

Insane.

The policy is insane.

Who but madmen would play such a gambit to distract from their herd culling corrupt excesses in the Sewer, DC.

Peace.

Writing from Kyiv, I assure you that Ukrainians didn't want this war. Remember how a stunned Zelensky was caught flat-footed?

Before reading what RFK said, I'll agree that Victoria Nuland et. al. seemed more enthusiastic about war than anybody here. Do not disregard the fact that Putin himself wanted it. He was looking for an excuse.

Whatever, the US has a moral obligation to stand by us as we defend ourselves.

I'm reading the anti-Israel comments and am very disheartened by the constant bias focused solely on an entity the size of New Jersey. The propaganda is yet another calculated stream of lies perpetrated by none other than the globalist US Deep State and its UN/WEF/ Militarist Kleptocorporate multinational monopolistic technocratic CommunolslamoFascist owner class. Aside from the endemic antisemitism long ago called out by Pat Moynihan, Scoop Jackson, Goldwater- luminaries Rod Serling, Ray Bradbury, Aldous, Huxley, Mathieson, McLuhan, Chayefsky, Fosse, Asimov, David Lean... all of whom warned of where the UN was headed, called to abolish the CIA, warned against expanding NATO- the message fell upon deaf ears.

The anti-Israel bullshit mirrors the anti-Russia, India, Hungary, Japan under Abe, Czech Republic under Zeman, Italy under Malvini, Brazil under Bolsinaro, Greece, Brexit, Peru, Chile, Peru, Honduras, El Salvador, Colombia-all who fought to restore national sovereignty -the EU nations who elected leaders with the promise of exiting the stranglehold that is the European Union. The stopping blocks in the way of the Agenda 21 Great Reset Build Back Better Fourth Reich New World Order. Taking out Gaddafi opened the floodgates. Egypt fought back, overthrowing Morsi. The Abraham Accords threw a tremendous wrench in the works. Zelensky created a new threat, but not for long. Inciting Putin's invasion took care of Zelensky's dream. Creating a monster is the illusion of a "hero".

Soros is using fake organizations inciting chaos and paying protesters to overthrow Netanyahu and weaken Israel's social fabric, economy, standing and ability to defend itself. Bibi had a very good relationship with Putin dating
